SECTION 2, SUBJECT INDEX

This subject index follows the format of the National Library of Medicine's *Index Medicus*. Headings have been added.

Entries take this form: Volume and number, senior author, first page of the article. For example, 15:7 Keil (957) refers to the article "Social Correlates of Female Abstinence from Marijuana: Results of a Household Survey," by T. J. Keil, found in issue 7 of this volume, beginning on page 957. From this section of the index, reference can be made to Section 1 for the full title and authors of a particular article.

All original contributions to *The International Journal of the Addictions*, Volume 15, are indexed. Book reviews and communications are not included.
